COMMUNITY SUPPORT - LETTERS & SIGNATURES

April 25, 2019

Ms. Sheila A. Dillon
Chief and Director
City of Boston Department of Neighborhood Development
26 Court Street, 11th Floor
Boston, MA 02108-2528

Dear Ms. Dillon:

We write this letter in support of the proposal by The People's Academy to acquire a tract of land close by Warren and Quincy streets in Dorchester to serve as the Academy's headquarters.

Over the past few years, in our efforts to develop Winthrop Center, we have become acquainted with the distinguished Dorchester artist T. Michael Thomas whose extraordinary mission in training and encouraging youth in learning copper metalworking skills is exactly the kind of effort so critical in providing opportunity to youth in our city.

We understand the proposed project would serve as a training facility for Mr. Thomas' valued endeavors and also provide much needed affordable housing, a win-win situation.

Sincerely,

Joseph A. Larkin
Principal

/rrb

April 26, 2019

Donald Wright, Deputy Director
City of Boston, Office of Neighborhood Development
26 Court Street, 9th Floor
Boston, MA. 02108
RE: The People's Academy

Dear Mr. Wright:

On behalf of EDENS, I am writing to express my wholehearted support for the work of The People's Academy (TPA), and their proposal to redevelop long-vacant City-owned land to expand their operations and build a permanent home for their inspiring job-training program.

TPA offers paid pre-apprenticeship training to give at-risk youth a pathway into a career in the construction trades. TPA combines hands-on training and educational programming, real-world field experience, and a powerful support network. Through this model, TPA gives young people the foundational skills, connections, and networks that make it possible for them to thrive and become productive members of our community.

Through our collaborative fundraising efforts and the intricate copper work TPA has crafted for our South Bay project, we have met numerous TPA students and witnessed, first hand, the meaningful benefits of the program that Mr. Thomas and TPA has worked so hard to create. We are proud to be affiliated with TPA's work and mission, and are committed to helping them secure the support and resources needed to make their dream of securing a permanent home a reality.

Sincerely,

Vice President – Construction & Development

RE: Letter of Support: The People's Academy / T. Michael Thomas

I am writing to express my earnest support for the People's Academy, including for T. Michael Thomas, its President. Mr. Thomas has, through selfless determination and personal sacrifice, created an engine of positivity in his community which has touched and improved many lives. I personally have known Mr. Thomas for several years and have had the opportunity to talk with him many times about the People's Academy. By virtue of these conversations, I know that he has targeted the most at-risk members in his community to benefit from his program, including those reentering society from incarceration and youth who have experienced personal turbulence. Mr. Thomas should be commended for taking on this challenge and for the meaningful impact this has had on the Community.

Additionally, my company, Feldco Development, is the lead developer of the Tremont Crossing project in Roxbury. Tremont Crossing will be the largest commercial real estate development in the history of that community. As such, we have always realized that many of its greatest benefits must transcend its bricks and mortar. In that regard, we were very deliberate in the curating of our community and public benefits package, of which Mr. Thomas' People's Academy is a very important part. We are proud to have the People's Academy on our "team" and know that Mr. Thomas will continue to have a tangible impact on many lives in the future. However, having a permanent home for the People's Academy will be an essential ingredient for the expanded success of this important community asset. Therefore, I am hopeful that Mr. Thomas will be successful in his endeavors to make that a reality.

Sincerely,

A handwritten signature in black ink that reads "Barry E. Feldman". The signature is written in a cursive style with a long, sweeping underline that extends to the right.

Barry E. Feldman
President, Feldco Development Corp
Managing Member, P-3 Partners, LLC

THE PEOPLE'S ACADEMY PETITION SUPPORT LETTER

Dear Community Members,

We the Staff and Students of the People's Academy Inc. are submitting a (RFP) Request for Proposal, We are interested in making this the home base for the People's Academy, Inc.

The People's Academy Inc. is a 501(c) 3, non-profit organization which offers both at risk-youth, and unemployed adults who live in impoverished communities a second chance at life. The primary goal is to pass on the gifts and skills of its founder, Mr. T. Michael Thomas, who has spent more than twenty years in the building trades union, perfecting his skills as a "Master Craftsman", specializing in the use of copper in fabrication and installation. Mr. Thomas has transferred these skills into a bold and cutting edge initiative which encompasses three disciplines: business, education, and the arts. The People's Academy Inc, intends to train individuals with skills that will enable them to facilitate dual career paths, and position these individuals for jobs as skilled craftsmen in the building trades industry, and to utilize entrepreneurial opportunities which have the potential for economic growth and self sufficiency. The project also promotes work ethics, and engenders pride in community and one self; it also makes a commitment to the improvement in the quality of life.

THE PEOPLE'S ACADEMY PETITION SUPPORT LETTER

Dear Community Members,

We the Staff and Students of the People's Academy Inc. are submitting a (RFP) Request for Proposal, We are interested in making this the home base for the People's Academy, Inc.

The People's Academy Inc. is a 501(c) 3, non-profit organization which offers both at risk-youth, and unemployed adults who live in impoverished communities a second chance at life. The primary goal is to pass on the gifts and skills of its founder, Mr. T. Michael Thomas, who has spent more than twenty years in the building trades union, perfecting his skills as a "Master Craftsman", specializing in the use of copper in fabrication and installation. Mr. Thomas has transferred these skills into a bold and cutting edge initiative which encompasses three disciplines: business, education, and the arts. The People's Academy Inc. intends to train individuals with skills that will enable them to facilitate dual career paths, and position these individuals for jobs as skilled craftsmen in the building trades industry, and to utilize entrepreneurial opportunities which have the potential for economic growth and self sufficiency. The project also promotes work ethics, and engenders pride in community and one self; It also makes a commitment to the improvement in the quality of life.

Jobs

THE PEOPLES ACADEMY PETITION SUPPORT LETTER

The Peoples Academy founder, T. Michael Thomas, has worked for over 20 years as a master craftsman specializing in copper fabrication and installation. During that time, he noticed a lack of skilled trade workers from his community, especially on projects within that same community. The Peoples Academy was born from a desire to change that.

Curriculum for Metal Working in Detail

- Safety
- Metal Selection
- Fabrication
- Installation
- Business
- Education
- Arts

Dear Community Members,

We the staff and students of the Peoples Academy Inc. are submitting a (RFP) Request for Proposal. We are interested in making this the home of the Peoples Academy, Inc.

The Peoples Academy Inc. is a 501 (c) (3), non-profit organization which offers both at risk-youth, and unemployed adults who live in impoverished communities a second chance of life. The Primary goal is to pass on the gift and skills of the founder, Mr. T. Michael Thomas, who has spent more than twenty years in the Building Trades Union, perfecting his skill as a "Master Craftsman", specializing in copper fabrication and installation. Mr. Thomas has transferred these skills into a bold cutting edge initiative which encompasses three disciplines: business, education and the arts.

The People's Academy Inc., intend to train individuals a with skill that will enable them to facilitate dual career pathways position these individuals for jobs as skilled craftsmen in the building trades industry, and to utilize entrepreneurial opportunities which have the potential for economic growth and self sufficiency. The project also promotes work ethics, and engenders pride in community and oneself.

Dear Community Members,

We the Staff and Students of the People's Academy Inc. are submitting a (RFP) Request for Proposal, We are interested in making this the home base for the People's Academy, Inc.

The People's Academy Inc. is a 501(c)3, non-profit organization which offers both at risk-youth, and unemployed adults who live in impoverished communities a second chance at life. The primary goal is to pass on the gifts and skills of its founder, Mr. T. Michael Thomas, who has spent more than twenty years in the building trades union, perfecting his skills as a "Master Craftsman", specializing in the use of copper in fabrication and installation. Mr. Thomas has transferred these skills into a bold and cutting edge initiative which encompasses three disciplines: business, education, and the arts. The People's Academy Inc. intends to train individuals with skills that will enable them to facilitate dual career paths, and position these individuals for jobs as skilled craftsmen in the building trades industry, and to utilize entrepreneurial opportunities which have the potential for economic growth and self sufficiency. The project also promotes work ethics, and engenders pride in community and one self; it also makes a commitment to the improvement in the quality of life.

Dear Community Members,

We the Staff and Students of the People's Academy Inc. are submitting a (RFP) Request for Proposal, We are interested in making this the home base for the People's Academy, Inc.

The People's Academy Inc. is a 501(c) 3, non-profit organization which offers both at risk-youth, and unemployed adults who live in impoverished communities a second chance at life. The primary goal is to pass on the gifts and skills of its founder, Mr. T. Michael Thomas, who has spent more than twenty years in the building trades union, perfecting his skills as a "Master Craftsman", specializing in the use of copper in fabrication and installation. Mr. Thomas has transferred these skills into a bold and cutting edge initiative which encompasses three disciplines: business, education, and the arts. The People's Academy Inc. intends to train individuals with skills that will enable them to facilitate dual career paths, and position these individuals for jobs as skilled craftsmen in the building trades industry, and to utilize entrepreneurial opportunities which have the potential for economic growth and self sufficiency. The project also promotes work ethics, and engenders pride in community and one self; it also makes a commitment to the improvement in the quality of life.

Dear Community Members,

We the Staff and Students of the People's Academy Inc. are submitting a (RFP) Request for Proposal, We are interested in making this the home base for the People's Academy, Inc.

The People's Academy Inc. is a 501(c) 3, non-profit organization which offers both at risk-youth, and unemployed adults who live in impoverished communities a second chance at life. The primary goal is to pass on the gifts and skills of its founder, Mr. T. Michael Thomas, who has spent more than twenty years in the building trades union, perfecting his skills as a "Master Craftsman", specializing in the use of copper in fabrication and installation. Mr. Thomas has transferred these skills into a bold and cutting edge initiative which encompasses three disciplines: business, education, and the arts. The People's Academy Inc. intends to train individuals with skills that will enable them to facilitate dual career paths, and position these individuals for jobs as skilled craftsmen in the building trades industry, and to utilize entrepreneurial opportunities which have the potential for economic growth and self sufficiency. The project also promotes work ethics, and engenders pride in community and one self; it also makes a commitment to the improvement in the quality of life.

Dear Community Members,

We the Staff and Students of the People's Academy Inc. are submitting a (RFP) Request for Proposal, We are interested in making this the home base for the People's Academy, Inc.

The People's Academy Inc. is a 501(c) 3, non-profit organization which offers both at risk-youth, and unemployed adults who live in impoverished communities a second chance at life. The primary goal is to pass on the gifts and skills of its founder, Mr. T. Michael Thomas, who has spent more than twenty years in the building trades union, perfecting his skills as a "Master Craftsman", specializing in the use of copper in fabrication and installation. Mr. Thomas has transferred these skills into a bold and cutting edge initiative which encompasses three disciplines: business, education, and the arts. The People's Academy Inc, intends to train individuals with skills that will enable them to facilitate dual career paths, and position these individuals for jobs as skilled craftsmen in the building trades industry, and to utilize entrepreneurial opportunities which have the potential for economic growth and self sufficiency. The project also promotes work ethics, and engenders pride in community and one self; it also makes a commitment to the improvement in the quality of life.

Dear Community Members,

We the Staff and Students of the People's Academy Inc. are submitting a (RFP) Request for Proposal, We are interested in making this the home base for the People's Academy, Inc.

The People's Academy Inc. is a 501(c) 3, non-profit organization which offers both at risk-youth, and unemployed adults who live in impoverished communities a second chance at life. The primary goal is to pass on the gifts and skills of its founder, Mr. T. Michael Thomas, who has spent more than twenty years in the building trades union, perfecting his skills as a "Master Craftsman", specializing in the use of copper in fabrication and installation. Mr. Thomas has transferred these skills into a bold and cutting edge initiative which encompasses three disciplines: business, education, and the arts. The People's Academy Inc, intends to train individuals with skills that will enable them to facilitate dual career paths, and position these individuals for jobs as skilled craftsmen in the building trades industry, and to utilize entrepreneurial opportunities which have the potential for economic growth and self sufficiency. The project also promotes work ethics, and engenders pride in community and one self; it also makes a commitment to the improvement in the quality of life.

Dear Community Members,

We the Staff and Students of the People's Academy Inc. are submitting a (RFP) Request for Proposal, We are interested in making this the home base for the People's Academy, Inc.

The People's Academy Inc. is a 501(c) 3, non-profit organization which offers both at risk-youth, and unemployed adults who live in impoverished communities a second chance at life. The primary goal is to pass on the gifts and skills of its founder, Mr. T. Michael Thomas, who has spent more than twenty years in the building trades union, perfecting his skills as a "Master Craftsman", specializing in the use of copper in fabrication and installation. Mr. Thomas has transferred these skills into a bold and cutting edge initiative which encompasses three disciplines: business, education, and the arts. The People's Academy Inc. intends to train individuals with skills that will enable them to facilitate dual career paths, and position these individuals for jobs as skilled craftsmen in the building trades industry, and to utilize entrepreneurial opportunities which have the potential for economic growth and self sufficiency. The project also promotes work ethics, and engenders pride in community and one self; it also makes a commitment to the improvement in the quality of life.

The People's Academy, Inc. (TPA) is a non-profit, pre-apprenticeship program in the building trades in Boston, Massachusetts. The founder, T. Michael Thomas, has discovered an overwhelming need for such a program in the City of Boston and has been funding this program since its beginning. The mission of TPA is to provide training and mentoring to men, women and at-risk youth making them employable in the building trades.

TPA would like to gather community support to ask the city of Boston to turn over land at Warren and Quincy Streets that would house TPA's new headquarters. In this building would be a training facility and affordable housing. With this new facility TPA would have the space to train and help employ many more residents of Boston, expanding T. Michael's vision of working together with homeowners to help maintain their property for low cost and high quality. 100% of TPA's creations goes back into this much needed program for expansion.

With this land TPA will be making a difference in the Boston area by giving residents a chance to become employable and help turn their lives around.

The People's Academy, Inc. (TPA) is a non-profit, pre-apprenticeship program in the building trades in Boston, Massachusetts. The founder, T. Michael Thomas, has discovered an overwhelming need for such a program in the City of Boston and has been funding this program since its beginning. The mission of TPA is to provide training and mentoring to men, women and at-risk youth making them employable in the building trades.

TPA would like to gather community support to ask the city of Boston to turn over land at Warren and Quincy Streets that would house TPA's new headquarters. In this building would be a training facility and affordable housing. With this new facility TPA would have the space to train and help employ many more residents of Boston, expanding T. Michael's vision of working together with homeowners to help maintain their property for low cost and high quality. 100% of TPA's creations goes back into this much needed program for expansion.

With this land TPA will be making a difference in the Boston area by giving residents a chance to become employable and help turn their lives around.

Dear Community Members,

We the Staff and Students of the People's Academy Inc. are submitting a (RFP) Request for Proposal, We are interested in making this the home base for the People's Academy, Inc.

The People's Academy Inc. is a 501(c)3, non-profit organization which offers both at risk-youth, and unemployed adults who live in impoverished communities a second chance at life. The primary goal is to pass on the gifts and skills of its founder, Mr. T. Michael Thomas, who has spent more than twenty years in the building trades union, perfecting his skills as a "Master Craftsman", specializing in the use of copper in fabrication and installation. Mr. Thomas has transferred these skills into a bold and cutting edge initiative which encompasses three disciplines: business, education, and the arts. The People's Academy, Inc. intends to train individuals with skills that will enable them to facilitate dual career paths, and position these individuals for jobs as skilled craftsmen in the building trades industry, and to utilize entrepreneurial opportunities which have the potential for economic growth and self sufficiency. The project also promotes work ethics, and engenders pride in community and one self; it also makes a commitment to the improvement in the quality of life.
